

It has come to my attention that the FCC is considering giving priority to LPFM stations over current FM translator service. In my region of the country, K-LOVE (91.1FM) is the only real choice for contemporary Christian music and serves or ministers to me on a daily basis... important enough to me that I support the station financially even in these hard times. Losing access to K-LOVE in the Denver area would have a drastic, negative effect on the entire community, as I frequently run into Christians and non-Christians alike who chose to listen to this station. Please, reconsider any decision that could force this station providing positive & encouraging talk & music off the air.
